

Look who is shutting your water off...

In Sarasota County, there are almost 100 homes where water has been turned off (as of Jan. 8, 2021) and over 1500 households facing shutoffs. The County Commissioners have not done enough to help residents in financial distress. The right to safe water is a basic human right and especially needed during the pandemic.

We urge you to email or call the Republican SARASOTA COUNTY COMMISSIONERS and tell them people are hurting and need their help.
